PROFESSIONAL SUMMARY

Competitive programmer and open-source developer with experience in scalable automation systems, modern web technologies, and event-driven architectures. Selected for Google Summer of Code 2026 under openSUSE and qualified as an ICPC Amritapuri Regional 2025 regionalist. Skilled in C++, JavaScript, Python, MQTT, and Node-RED, with strong problem-solving, system design, and collaborative development abilities.

EDUCATION

Bachelor of Technology (Computer Science)	2025 - 2029
Newton School of Technology, S-VYASA (Bangalore)	Grade: 7.48/10.0
Intermediate (Class XII)	2024 - 2025
Shri Uttam Public School	Grade: 69.0%
Matriculation (Class X)	2022 - 2023
Shri Uttam Public School	Grade: 83.33%

INTERNSHIPS

Contributor	April 2026 - Present
GSoc @ openSUSE Project	<i>Bengaluru</i>

- Selected for **Google Summer of Code 2026 under openSUSE**
- Working on **Uyuni event-driven automation using MQTT & Node-RED**
- Building scalable automation workflows for system management
- Collaborating with global open-source contributors
- Writing production-level code and documentation

Web developer	July 2024 - August 2024
Varlyq Technologies	<i>Remote</i>

- Developed responsive web applications using HTML, CSS, JavaScript
- Built UI components and improved frontend performance
- Worked on real-world task-based projects

PROJECTS

RetroOS - AI Powered Retro Operating System (Github) (Demo)	February 2026
Tech Stack: Vanilla JavaScript, Canvas API, Web Audio API	

- Developed a browser-based retro operating system with **15 functional applications**
- Built hybrid AI features including AI terminal, assistant, and story generator
- Implemented achievements, easter eggs, window manager, and retro UI effects
- Engineered entire project with **zero external frameworks/dependencies**

Instagram CLI (Github)	January 2026
Tech Stack: Python, Instagrapi	

- Built command-line Instagram client for messaging and inbox management
- Implemented secure login flow with two-factor authentication support
- Added DM management, conversation handling, and session utilities
- Designed lightweight terminal-based social media automation tool

NST Construct 2025 - Hackathon Platform (Github) (Demo)	September 2025
Tech Stack: React, Vite, Express.js, Firebase, TailwindCSS	

- Built a full-stack hackathon platform handling **700+ registrations**

- Designed secure admin dashboard with Firebase-backed registration management
- Mitigated a **15k+ bot attack** using rate limiting and backend validation
- Implemented real-time registration workflows and scalable API architecture

CERTIFICATIONS

ICPC Amritapuri Regionalist 2025 International Collegiate Programming Contest ([Link](#)) January 2026

Qualified as an ICPC Amritapuri Regionalist 2025, demonstrating strong problem-solving skills, algorithmic thinking, and competitive programming expertise. Participated in one of the most prestigious global coding competitions.

Certificate of Internship Varlyq Technologies ([Link](#)) July 2024

This certificate recognizes my successful completion of a one-month task-based Web Development internship at Varlyq Technologies. I worked on real-world web development projects, demonstrating skills such as:

- HTML, CSS, and JavaScript for frontend development.
- Responsive design techniques.
- Basic problem-solving and debugging.

SKILLS

Computer Languages: C++, HTML, CSS, JavaScript, Python

Software Packages: React, Tailwind CSS

Soft Skills: Leadership

Others: Git and Github, GitHub Actions

EXTRA-CURRICULAR ACTIVITIES

Rajasthan Bharat Scout & Guide

- Awarded **Dwitiya Sopan** Scout/Guide Badge.
- Participated in district-level scouting competitions.

Robin Hood Army Volunteer

- Participated in food distribution and community outreach initiatives.
- Collaborated with volunteer teams for social impact activities.
